RATIONALE FOR DEVELOPING A CITIZEN'S VERSION OF THE BUDGET

1. A Citizens Budget is a shortened and simplified version of the budget taken to the County Assembly. It is meant to be a guide for the general public and explains some of the contents in a simple and easily understood language. By doing so, all citizens will be able to understand better the contents of the budget.
2. The Citizen's Budget is a requirement of section 6 (2) of the Public Finance Management Act, 2012 (County Government Regulation, 2015) which states that "the County Treasury shall arrange for effective public participation during the development of their annual budget estimates including publication of citizen's budget which shall explain and summarize the budget proposal."

THE KENYAN BUDGET PROCESS

3. The Kenyan budget process at the county level takes place as demonstrated in the table below:

BUDGET STAGE	RESPONSIBILITY	KEY BUDGET DOCUMENT(S)
Formulation	County Executive	• Annual Development Plan (ADP) • County Budget Review and Outlook Paper (CBROP) • County Fiscal Strategy Paper (CFSP) • County Budget Proposal
Approval	County Assembly	Enacted budget/Appropriation act
Implementation	County Executive & County Assembly	Quarterly Implementation Reports
Audit and Evaluation	Auditor General	• Audit Reports • County Budget Review and Outlook paper (CBROP)

Table 1: Budget Process

Note: The public and the county assemblies play an oversight role throughout the four stages of the budget cycle.

UNDERLYING ASSUMPTIONS ON THE 2024/2025 BUDGET ESTIMATES

4. Kenya's economy remains resilient with an impressive economic performance of 5.5 percent in 2023 from 4.8 percent the previous year on account of bold economic policies and structural reforms as well as sound economic management implemented overtime. However, the momentum has been slowed again by the effects of the Russia-Ukraine conflict that has disrupted global trade through increased fuel, fertilizer and food prices. For the first time in five years, inflation rate in Kenya is above the Government target range mainly driven by supply side constraints occasioned by external shocks.

5. The Kenyan economy continued to expand in 2023, compared to the slower pace of the 4.8 percent recorded in 2022. Real GDP is expected to have grown by 5.5 percent in 2023 supported by the services sector despite subdued performance in agriculture and weaker global growth. The economy is projected to stage between 4.5 and 5.2 percent in 2024, reinforced by the Government's Bottom – Up Economic Transformation Agenda geared towards economic turnaround and inclusive growth.

6. The country's real GDP grew by 5.9 per cent in the third quarter of 2023, compared to 4.3 per cent in the corresponding quarter of 2022. This growth was mainly supported by a rebound in agricultural activities that had contracted in 2022. During the review quarter, Agriculture, Forestry, and Fishing activities' GVA rose by 6.7 per cent compared to a contraction of 1.3 per cent in the third quarter of 2022 owing to favorable weather conditions that characterized the better part of 2023. In addition, the growth was also buoyed by significant growths in Financial and Insurance (14.7%), Information and Communication (7.3%) and Accommodation and Food Service (26.0%) activities. The substantial growth in Accommodation and Food Services was manifest by the significant increase in the number of visitor arrivals in the country. However, Transportation and Storage activities' GVA decelerated from 5.1 per cent in the third quarter of 2022 to 2.8 per cent during the review period, partly attributable to high cost of petroleum fuels.

7. The coordination between monetary and fiscal policies continued to support macroeconomic stability with interest rates remaining relatively stable. Inflation had remained above the Government target range of 5±2.5 percent from June 2022 to June 2023. In order to anchor inflation expectations, the Monetary Policy Committee (MPC) gradually raised the policy rate (Central Bank Rate (CBR)) from 7.50 percent in May 2022 to 10.50 percent in June 2023 and further to 12.50 percent in December 2023.

The tightening of the monetary policy was to address the pressures on the exchange rate and mitigate second round effects including from global prices. This will ensure that inflationary expectations remain anchored, while setting inflation on a firm downward path towards the 5.0 percent mid-point of the target range.

8. The external sector has remained stable despite the tight global financial conditions attributed to strengthening of US Dollar and uncertainties regarding the ongoing Russian-Ukraine conflict. Due to the strong dollar, the exchange rate to the Kenya shilling, like all world currencies, has weakened but strengthened against other major international currencies. Kenya like several other countries is experiencing foreign exchange challenges due to the rise of US interest rates. In November 2023, the Kenya Shilling weakened by 24.7 percent against the US Dollar, 31.9 percent against the Sterling Pound and 32.2 percent against the Euro, compared to a similar period in 2022.

9. The Kenya Shilling exchanged at an average of Ksh 152.0 in November 2023 compared to an average of Ksh 121.9 in November 2022. Against the Euro, the Kenya shilling weakened to exchange at Ksh 164.2 in November 2023 compared to Ksh 124.2 in November 2022 while against the Sterling Pound the Kenyan Shilling also weakened to exchange at Ksh 188.6 compared to Ksh 143.0, over the same period. The Kenyan Shilling was supported by increased remittances, adequate foreign exchange reserves and strong exports receipts.

10. The fiscal policy continues to pursue growth friendly fiscal consolidation to preserve debt sustainability. This will be achieved through enhancing revenue collection and curtailing non-core expenditures while prioritizing high impact social and investment expenditure. By FY 2027/28, the fiscal deficit would have decreased by a projected Ksh25.8 billion. As opposed to 5.1 percent of GDP in 2022, the current account deficit is expected to decrease to 4.4 percent of GDP in 2023 and 4.0 percent of GDP in 2024. A decrease in imports in the face of declining oil prices, currency rate adjustments, and additional rationalization of capital spending are the main factors driving the anticipated narrowing of the current account deficit. Strong remittance inflows will also continue to maintain the current account balance.

11. The 2024/2025 Budget is the second to be prepared to implement the County Integrated Development Plan 2023-2027 whose vision is to see Mombasa County as a vibrant modern regional commercial hub with a high standard of living for its residents.

12. The policies supporting the 2024/2025 budget estimates aims to entrench fiscal prudence, value for money and delivery of programs to provide high quality services through transformational leadership by ensuring prudent utilization of resources to foster socio-economic development to the residents of Mombasa.

SOURCES OF REVENUE

13. The Mombasa County 2024/2025 financial year budget targets total revenue amounting to 16.3 billion; Total exchequer issues of Ksh 10.3 billion; including equitable share of Ksh 8.1 billion, Conditional grants Ksh 2.2 billion and county own source revenue of Ksh 6 billion. This performance will be underpinned by the on-going reforms in revenue administration. The revenue department will institute measures to expand the revenue base and curb revenue leakages.

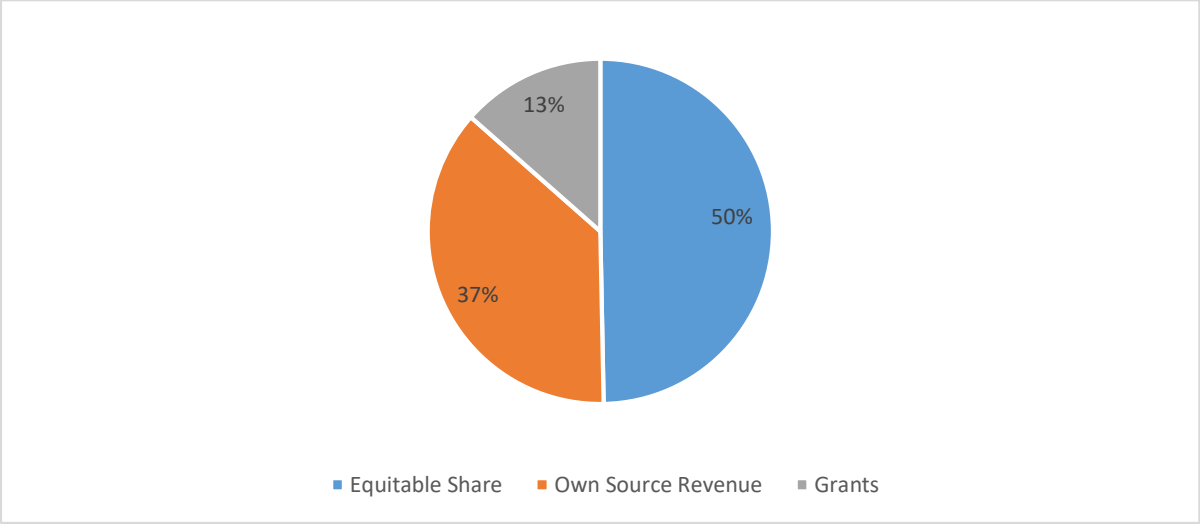

Figure 1: Mombasa County Sources of Revenue

REVENUE/EXPENDITURE PROJECTIONS	2024/2025 (KSHS.)
National Government Equitable Share	8,141,725,357

Table 5: Revenue Projections

KEY HIGHLIGHTS OF THE 2024/2025 BUDGET ESTIMATES

14. The budget is framed against a backdrop of global economic slowdown underpinned by the ongoing Russia-Ukraine conflict, elevated global inflation, the lingering effects of the COVID-19 pandemic, and persistent supply chain disruptions and the drought effects that have created urgency on food security and climate change effects. This urgency allows us to refocus investments on mitigation, adaptation and firm resilience.
15. Kenya's economy remains resilient with an impressive economic performance of 5.5 percent in 2023 from 4.8 percent the previous year on account of bold economic policies and structural reforms as well as sound economic management implemented overtime, propelled by heavy public investments in public infrastructure. However, the momentum has been slowed again by the Russia-Ukraine conflict that has disrupted global trade through increased fuel, fertilizer and food prices. For the first time in five years, inflation rate in Kenya is above the Government target range mainly driven by supply side constraints occasioned by the external shocks as well as the drought effects.
16. In addition, the drought impacts in the economy has created a strong focus on food security and climate change. These effects will become dominant in economic management and focusing on its quality and structure. We have witnessed how it has reversed efforts in poverty reduction and inequality, but above all promoted social conflicts. These effects are compounded and amplified by declining manufacturing productivity; skewed access to finance for business and development; rigidities in business regulatory framework; weak governance; and fiscal risks including pension's liabilities, stalled public projects, payment arrears; and high debt service that has hindered the economy from achieving its full potential.
17. The focus of the policies is to continue providing an enabling environment for economic recovery to safeguard livelihoods, jobs, businesses and industrial recovery. In this respect, the Government will strengthen implementation of programmes and measures that ensure a more inclusive growth, foster macroeconomic stability and support Micro, Small and Medium Enterprises (MSMEs).
18. The overall objective is to realize sustainable, shared and equitable growth that would in return lead to accelerated job creation and improved livelihoods for the citizenry. The actualization of the key priority areas will complement the National Government's Bottom-Up Economic Transformation Agenda (BETA) development agenda, the Fourth Medium Term Plan, the Mombasa Vision 2035 and all other development blueprints. The critical

programmes to be implemented are expected to stimulate the County's socio-economic development and revamp the economy.

19. The social programmes that the County will initiate are expected to accelerate and sustain inclusive growth, create opportunities for decent jobs, reduce poverty and income inequality and ensure that we create a healthy and food secure society in which every Kenyan is guaranteed of affordable and decent housing and provide a better future for the Mombasa Citizenry and the Kenyans at large. The focus of the budget 2024/25 and the Medium-Term Plan is;

20. **Revamping of quality and affordable health services**

The Department of Health continues to strategize and improve the support it offers to the community units which are manned by community health workers so as to address sanitation, hygiene and health issues as well as stepping up the water and sanitation programme compliance in the county. The County Government has the following priority interventions:

- Ensure increased uptake of NHIF to reduce out of pocket spending
- Resource the devolved healthcare infrastructure at sub-county level so that there is adequate healthcare staff, medication and equipment to serve the needs of the people
- Acquire a second cancer treatment centre
- Recruitment, continuous and progressive training for healthcare workers and promotions
- Ensure Universal Health Care for all citizens
- Operationalize the Mombasa County Community Health Service Bill, 2023

21. **Youth , Women Empowerment, Cohesion and Inclusivity**

In Mombasa, the largest trading hub in East Africa, the rate of youth unemployment still remains high at 44%. Roughly, 4 out of 10 of our young people are jobless. The County Government shall seek to create systems for vibrant economic growth and development in the County by placing special focus on creating opportunities for informal self – employed residents working as hairdressers, jua kali workers, mama mboga as well as our young people working as waiters, artists, creatives, tuk drivers, boda operators among others.

The County intends to exploit and tap into the Youth talents by ensuring we have adequate sporting facilities within the County for them nurture their talents. Provision of a revolving

fund with the county's budget will empower Women, Youth and Persons living with disabilities so as to improve their standards of living and their quality of life. On Youth, Women Empowerment and Development Agenda the County will;

- Create a job placement database to provide companies with local talent working with the Ease of Business Directorate
- Implement the air lifting program for youth to expand job creation
- Engage the Youth in social projects through the "Mombasa Yangu" initiative.
- Training of the youth and rehabilitate youth resource centers; equipping them with skills to match the industry/ practice
- Create a County Revolving Youth and Women Fund
- Setting up innovation funds, challenge funds for young people to test new ideas among the youths.
- Cushion the elderly people in Mombasa
- Establish County Gender Based Violence, child protection and Youth friendly wellness centres
- Implementation of the 30% government procurement rule, to give youth opportunity to do business with government.

22. Education and Training

As the County nurtures a globally competitive workforce that will drive economic growth and spur job creation, rehabilitation and improvement of the Technical and Vocational Training Institutions (TVETs) is paramount. To increase enrolment and retention in Early Childhood Education, the County is investing in construction of modern and state of the art ECDEs as well as rehabilitation and equipping of the existing ones while ensuring the learners are well nurtured through implementing a school feeding program. In addition, the County Government continues to issue bursaries for vocational training sponsorship to School leavers, dropouts and the youth in general.

The following are some of the proposed interventions;

- ECDEs construction and refurbishment
- Enhance the schools' mentorship programmes
- Run a comprehensive and transparent Bursary Program

- Provide free learning at ECDE centres
- Support the School Feeding Program at ECDE Centers
- Revive Technical and Vocational Education and Training centres
- Enhance capitation for TVETs
- Promote decent jobs through training on entrepreneurship
- Recruit and train adequate early childhood education and vocational polytechnic personnel
- Invest in the development of appropriate infrastructure at Serikali Mtaani level
- Promote public participation to build awareness on the importance of early childhood education as foundational in the trajectory of young people's lives
- Widen the Reach of the Second Chance Program- designed to support vulnerable women who have dropped out of formal education as a result of early pregnancy to resume their studies

23. Streamlined Waste Management Services

As the County aligns itself to the Green economy which is a global phenomenon, unstructured waste disposal continues to be the leading cause of environmental degradation due to lack of an efficient and effective solid waste management system. Due to the proliferation of illegal dumpsites witnessed within the county with piles of uncollected garbage littering most estates, the county is embarking on putting up structures and mechanisms so as to address the perennial menace.

An exponential amount of untreated sewage is being disposed into the Indian Ocean while solid waste is disposed at the Mwakirunge Dumpsites with only 17 per cent of the County being connected to the sanitation and sewerage system at Kipevu Sewerage plant. In this regard, the County Government is currently embarking on solid waste management initiatives with efforts in place to commission landfills that will adhere to environmental safeguards. The safe disposal of solid and liquid waste will inhibit disposal of raw and untreated waste into our water bodies. The following are some of the initiatives that the County will undertake in this sector;

- Establish innovative practices in waste reduction, reuse, recycling, treatment and disposal to reduce disposable materials
- Identify and set aside appropriate land for disposal of solid waste

- Promote urban regeneration programs to increase gentrification of informal settlements to improve sewer services;
- Maintain existing neighborhood sewerage and drainage infrastructure while developing new one infrastructure in support of high growth sectors in urban centers;
- Implement an EcoLoo program of bio digester public toilets to ensure adequate community based sanitary facilities in informal settlement
- Formalize landholding in urban and city informal settlements to manage approved development to avoid damaging drainage

24. Investment Promotion

The County will promote sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all. Mombasa is a key driver of the entire country's economic growth. We are among the top contributors to the national GDP in terms of transport and logistics, manufacturing, industry and services associated with being the regional tourist hub in addition to the employment that was created through the port. Through concentration, Mombasa as an urban area provides the economies of scale and scope that reduce production and transaction costs, thus making the provision of basic infrastructure services and other amenities, more economically viable.

About 70% of all employment is drawn from the informal sector. Over the last decade, the County has experienced major challenges especially due to global trends which has led to the closure of industries, the transfer of clearing and forwarding services inland and the decline of the tourism sector. This has led to widespread job losses, subsequently leading to a decline in the quality of life to the citizens within the county. In order to revive the economy to an upward trajectory the County Government envisions to explore the following interventions;

- Revamp and operationalize the Mombasa Investment Corporation
- Develop a strategy for investments promotion to grow the county economy
- Strengthen the revenue collection systems that will increase efficiency
- Develop innovative and effective sources of finance (including Public Private Partnerships) to fund urban development and the provision of services.
- Establish business incubation centers
- Facilitation of shadowing and apprenticeship opportunities both in public and private sectors.

- Develop, facilitate, and implement business incubation and accelerator programmes / information centers for start-ups, early and growth stage businesses.
- Host annual business competition and exhibition forums to foster business innovation and linkage to investment opportunities.
- Support the manufacturing sector through provision of a conducive work environment.

25. **Infrastructure Development, Land management and affordable Housing Services**

As the county diversifies its economic activities and positions its self to becoming a preferred destination for investors both local and foreign so as to improve the quality of life for its citizens, it will endeavor to invest on infrastructure development projects.

This is will stimulate the ailing economy by providing an enabling environment for investment and delivery of services by acting as a catalyst that ensures amongst others a vibrant 24 hours economy and also a preferred worldwide tourist destination. Being the smallest County in land mass within the Country, housing and land management has been prioritized so as to provide a dignified, peaceful and stable coexistence of our citizens through planning, land administration and provision of decent, adequate and affordable housing. In infrastructure development, the main interventions of the County are:

- Improvement of access roads, drainage, non-motorized transport, beautification and aesthesis of the County
- The County will continue to work closely with the National Government in Planning and issuance of titles in the medium term and also repossession of all grabbed public land.
- The County will take part in surveying, planning and land mapping to ensure investors and the residents are able to benefit from land as a factor of production.
- Strengthening of the "Ardhi Fund" to settle squatters within the County
- In order to compliment the BETA Agenda, the County has commissioned the mega program on Social Housing Units through PPP for construction of social housing units within the County owned dilapidated Estates.
- To empower the SMES the county will continue to improve and set up trading infrastructure within the county.

26. The actualization of the key priority areas by department within their budget allocations will complement the BETA Agenda and the Governor's Manifesto which is expected to accelerate and sustain inclusive growth, create opportunities for decent jobs, reduce poverty and income

inequality and ensure that we create a healthy and food secure society in which every Citizen is guaranteed of affordable and decent quality of life.

27. The actualization of the key priority areas will complement the BETA Agenda and the Governor's Manifesto which is expected to accelerate and sustain inclusive growth, create opportunities for decent jobs, reduce poverty and income inequality and ensure that we create a healthy and food secure society in which every Citizen is guaranteed of affordable and decent quality of life.

BUDGET PRIORITY PROJECTS / PROGRAMMES

28. The following are some of the key Budget Priority Projects;

1. Water, Natural Resources & Climate Change Resilience

Project Name	Location/ Ward	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Mapping and valuation of natural resources	All Wards	To enhance sustainabil in utilization of natura resources	Sustainably managed natural resources	No. of sub counties whose natural resources are mapped and valued	July 24- June 25	County Government of Mombasa FAO Ministry of Environment and Forestry Ministry of Wildlife and Tourism Ministry of Blue Economy and Mining	5,000,000
Increase & maintenance of sewerage network	Old Town, Mikindani, Chaani, Changamwe, Miritini, Portreitz	To prevent water pollution by preserving the environment and maintaining an ecological balance	Preserved environment	No. of km increased and maintained	Jul 24-Jun 25	-DWNPWCCR -MOWASSCO -WDSP	1 BILLION
Construction of ablution blocks and public toilets	Old Town, Tononoka, Tudor, Mwembe Tayari, Kongowea, Mwakirunge, Jomvu Kuu	To promote reliable access to sanitation	Increased no. of connectivity to safe and reliable water supply	No. of groups and community members reached.	July 2024- June 2025	-DWNPCCR -MOWASSCO -WDSP	
Combined Storm sewer outfall	Tononoka, Tudor, Ganjoni/Shimanzi	To prevent water pollution by preserving the environment and maintaining an ecological balance	Preserved environment	No. of groups and community members reached	July 2024 to June 2025	DWNPCCR WDSP	

Project Name	Location/ Ward	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Improvement of access to Fresh Water	Shika Adabu, Mikindani, Changamwe,Miritini, Jomvu Kuu, Mkomani, Ziwa La Ng'ombe, Mwakirunge, Shanzu,Bamburi, Mjambere, Shanzu	To promote access to safe and reliable water consumption patterns	Increased no. of connectivity to safe and reliable water supply	No. of groups and community members reached.	July 2024 to June 2025	DWNPCCR WDSP	
Establishment of Kipevu Treatment Plant	Chaani	To enhance the quality of treated wastewater discharged into the environment	Enhanced wastewater treatment processes.	No. of processes upgraded.	July 2024 to June 2025	DWNPCCR WDSP	
Rehabilitation and maintenance of waste water treatment plants	1 ward-Chaani	To enhance the quality of treated wastewater discharged into the environment	Enhanced wastewater treatment processes.	No. of processes upgraded.	Jul 24-Jun 25	-DWNPWCCR -MOWASSCO	3,000,000
Purchase of 30 water storage tanks for 5000L	All wards	To promote access to safe and reliable water storage facilities.	Increased access to safe and reliable water.	No. of water tanks purchased & distributed	July 2024-June 2025	DWNPCCR	2,400,000
Fabrication of improved jikos for schools	Mkomani	Promote uptake of renewable energy Promote transition to climate friendly cooking	Community Knowledge on renewable energy and sustainable energy options gained	No. of groups and community members reached	July 2024 to June 2025	DWNPCCR	4,000,000
Rehabilitation of Uhuru Gardens (Phase 1)	Shimanzi/Ganjoni	To green and enhance the aesthetic of the county	Enhanced county green cover	No. of public parks, recreational facilities and open spaces maintained and greened	July 2024 to June 2025	DWNPCCR FLOCCA	25,000,000
Rehabilitation of sewer line	Changamwe, Chaani	To prevent water pollution by preserving the environment and maintaining an ecological balance	Preserved environment	No. of km of sewer line rehabilitated	Jul 24-Jun 25	DWNPWCCRFLOCCA	15,000,000
Develop a county climate information system	County wide	To enhance climate change adaptation and mitigation at the county	To enhance climate change adaptation and mitigation at the county	No. Climate information system established	July 2024-June 2025	County Government Meteorological department KFS NEMA Development partners (World bank)	4,000,000

Project Name	Location/ Ward	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Rehabilitation and drilling of Boreholes	Kadzandani (Bombolulu Workshop), Mtongwe, Changamwe, Ziwa la Ng'ombe (school)	To provide a reservoir for storing water and promote groundwater recharge.	Increased access to water	Vol. of water collected	July 2024- June 2025	DWNPCCR FLOCCA	20,000,000
Planting of Terrestrial trees in the schools County Wide	All wards	To increase the county forest cover and attain the tree planting target	County forest cover increased	No. of trees planted and maintained	Jul 24- Jun25	County Government	3,000,000
Purchase of an Exhauster with flushing unit	All Wards	To prevent water pollution by preserving the environment and maintaining an ecological balance	Preserved environment	No. of km increased and maintained	Jul 24-Jun 25	DWNPWCCRFL OCCA	15,000,000

2. Finance & Economic Planning

Program/project	Location/ Ward	Objective	Expected outputs/Outcomes	Timeframe	Performance Indicators	Estimated Cost (Kshs)
						2024/25
Networking of all Department of Public Service Administration, Youth, Gender, Social Services & Sports offices - LAN, repair & Maintenance	County Offices	To enhance ICT resources and information sharing for effective and efficient service delivery	Enhanced access to information for effective and efficient service delivery	By 30th June 2025	No of offices Networked	2,000,000
Refurbishment, equipping and operationalization of the Data Center	Mvita	To provide a secure Data/ information processing and repository facility for county information systems	Better, secure, efficient management and sharing of data and information.	By 30th June 2025	% of work completed	5,400,000
Enhancement of County Information Security	Old Town (Treasury)	To safeguard access to county ICT systems, data and information	Secured systems, data and information	By 30th June 2025	No of security systems installed	3,500,000
Establishment of ICT innovation Hub	Tononoka	To provide a conducive environment for development of ICT skills to promote ICT innovation and employment creation	A Socially and economically empowered society	By 30th June 2025	No of Hubs established	2,000,000
Enhancement of network Connectivity across the county	County Wide	To provide internet infrastructure for leveraging ICT services	Increased productivity	By 30th June 2025	Hosting site No of emails No of sites on MPLS	17,000,000
Provision of Web services	County Wide	To provide web related services and tools for systems development, management and upgrade of county e-services systems	Better digital systems for enhanced service delivery and customer experience	By 30th June 2025	Capacities of web services provided	12,800,000
Provision of software for Information management	County Wide	To provide software applications and network management tools and for data and information processing	Increased productivity	By 30th June 2025	No of software provided	8,000,000

Program/project	Location/ Ward	Objective	Expected outputs/Outcomes	Timeframe	Performance Indicators	Estimated Cost (Kshs) 2024/25
Development of an integrated ICT dashboard	Old Town(Treasury)	Develop an integrated revenue service reporting dashboard for all revenue streams	Enhanced revenue management, analysis and monitoring	By 30th June 2025	% of revenue systems on boarded	16,600,000
Development of the County Statistical abstract	County Wide	To ensure there is an updated reliable County data	County Statistical Abstract developed	By 30th June 2025	A County Statistical Abstract in place	23,000,000
Amalgamating of the various revenue streams	County Wide	To ensure there is an increase in Own Source Revenue collection	Automated revenue collection system in place	By 30th June 2025	A fully integrated automated revenue collection system Implemented	137,200,000
Management of pending bills	County Wide	To reduce the amount of pending bills owed	Reduction on pending bills	By 30th June 2025	% of relative pending bills settled	380,300,000
Management of Natural Disasters through Grants	County Wide	To ensure certainty in dealing with possible natural disasters	Disaster Management preparedness	By 30th June 2025	Level of disaster management preparedness	30,000,000

3. Executive

Project Name	Location/ Ward	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Renovation of the Governor's and DG's office.	Mvita	To facelift the office as an image brand for international and local visits.	Renovation of office.	Increase productivity and service delivery	July 2024-June 2025	CGM	15,000,000
Purchase of Communication, sound and audio visual Equipment (Public Address System) for the CS's Office and Governor's and Deputy Governor's Office	Mvita	To enhance clear and effective communication during in events meetings, and presentations.	Acquisition of a state-of-the-art sound system designed to provide high-quality sound.	Increased quality in efficiency of information disseminated through quality sound system	July 2024-June 2025	CGM	21,000,000
Renovation of the CS's Office	Mvita	To facelift the office as an image brand for international and local visits.	Renovation of office.	Increase productivity and service delivery	July 2024-June 2025	CGM	1,000,000

4. Public Service Administration, Youth, Gender, Sports & Social Services

Project Name	Location/ Ward	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Phased Construction of the Mombasa Stadium	Tononoka	To provide adequate sports training facilities and ability for the county to host both County and country wide	Improved sports facilities.	Level of phases completed No. of sports facilities improved	July 2024- June 2025	CECM YGSS Sports partner	200M
Construction and rehabilitation of sports grounds; Uwanja wa Mbuzi, Bomu, Mwahima	Kongowea, Port Reitz & Likoni	To ensure standardization of playing fields To provide adequate sports training facilities County wide	Sports stadium developed and equipped. Improved sports facilities.	No.of stadium equipped No, of sports facilities improved	July 2024- June 2025	Dept YGSS MCFA sponsors	70M

5. Education

Project Name	Location/Sub County	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Proposed New ECDE Centre at Maunguja Primary School (Phased)	Mwakirunge	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	6,400,000
Proposed New ECDE Centre at Chaani Primary School (Phased)	Chaani	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	2,200,000
Proposed New ECDE Centre at Mwangala Primary School(Phased)	Mtongwe	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	1,700,000
Proposed New ECDE Centre at Ronald Ngala Primary School(Phased)	Tudor	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	9,300,000
Proposed New ECDE Centre at Digirikani Primary School(Phased)	Mwakirunge	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	6,200,000
Proposed New ECDE Centre at Majaoni Primary School(Phased)	Shanzu	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	3,700,000

Project Name	Location/Sub County	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Proposed New ECDE Centre at Mwijabu Primary School (Phased)	Port Reitz	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	8,900,000
Proposed New ECDE Centre at Kengeleni Primary School(Phased)	Kongowea	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	8,400,000
Proposed New ECDE Centre at Peleleza Primary School (Phased)	Bofu	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	
Proposed New ECDE Centre at Mreroni ECDE (Phased)	Jomvu	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	
Proposed ECD Centre at St Mary Bangladesh ECDE(Phased)	Jomvu	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	11,600,000
Proposed ECD Centre at Amani ECDE(Phased)	Jomvu	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	13,700,000
Proposed ECD Centre at Shika Adabu ECDE(Phased)	Likoni	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	2,300,000
Proposed ECD Centre at Baraka Voroni ECDE(Phased)	Kisauni	Improve access to quality ECDE education	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	9,600,000
School Feeding Programme	All Sub-counties	Improved increased enrolment	Access to quality preprimary Education	Increased enrolment of ECDE learners	July 2024- June 2025	CGM	50,000,000
Purchase of Minibus	All Sub-Counties	Improve access to quality ECDE education through easy movement	Well organized operations and service delivery	Smooth running of movement across the ECDEs	July 2024- June 2025	CGM	11,000,000
Scholarships and other Educational Benefits - Bursaries	All Sub-Counties	Access to quality Education	Improved Transition rates	Access to quality Education	July 2024- June 2025	CGM	449,000,000
Grants to ECDEs and VTCs	All Sub-Counties	Access to quality preprimary and VTC Education	Increased enrolment of ECDE learners Increased enrolment of skilled graduates	Access to quality preprimary Education To improve the VTC training with market driven courses	July 2024- June 2025	CGM	47,000,000

6. Lands, Urban Renewal & Housing

PLANNING SECTION

PROJECT NAME	PROJECT LOCATION/WARD	OBJECTIVE	OUTPUT/OUTCOME	PERFOMANCE INDICATORS	TIME FRAME	IMPLEMENTING AGENCIES	COST
Installation of smart surveillance system in the county.	All wards in Mvita sub county	To map out strategic points for installation of smart city surveillance system.	Reduced crime incidences. Enhanced governance. Improved traffic management	Number of points mapped Report on mapping exercise No. of surveillance cameras installed.	July 2024-June 2025	County Government	76M

KISIP 2 2024-2025 PROGRAMME

PROJECT NAME	PROJECT LOCATION/WARD	OBJECTIVE	OUTPUT/OUTCOME	PERFOMANCE INDICATORS	TIME FRAME	IMPLEMENTING AGENCIES	COST
Construction of Roads/ Footpaths, Drainage System, Water Supply Works and Public Lighting Works.(1 Contract)	Mkomani-Kisumu Ndogo Bamburi Jomvu Kuu Chaani Likoni Timbwani	To enhance accessibility to storm water drainage, clean water and street lighting. To improve accessibility.	Reduced crime incidences. Improved sanitation standards. Increment in commercial activities.	Percentage of roads/footpaths constructed. Number of houses accessing clean water. Number of street lights installed.	July 2024-June 25	County Government KISIP	860M

7. Environment & Governance

- **ENVIRONMENT & SOLID WASTE MANAGEMENT**

Project Name	Location	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Renovation of public toilets.	Old Town, Tononoka, Tudor, Mwembe Tayari, Kongowea, Mwakirunge, Jomvu Kuu	To improve hygiene and sanitation standards in public spaces.	Renovated public toilets with improved facilities and hygiene	Number of toilets renovated	July 24-Jun25	ESWM	20M
Maintenance of access roads in the Mwakirunge dumpsite.	Mwakirunge	To facilitate continuous waste disposal operations.	Improved access to the dumpsite	Number of km maintained	July 24-Jun25	ESWM	7M

Project Name	Location	Objective	Output/ Outcome	Performance Indicators	Time Frame (Start- End)	Implementing Agencies	Cost (Kshs)
Overhaul repair and maintenance of vehicles	All sub Counties	To enhance operational efficiency and safety standards.	-Improved turn-around time for waste collection	- Number of trucks repaired	July 24-Jun25	ESWM	20M
Acquisition of noise Meters	All Sub Counties	To Enforce compliance with noise regulations	Reduced public disturbance caused by noise	Number of noise Meters purchased	July 24-Jun25	ESWM	1.8M
Acquisition of 5 compactors for waste management	All sub counties	To improve cleanliness and hygiene standards on city streets.	Enhanced street cleaning	Number of modern street cleaning vehicles	July 24-Jun25	ESWM	115M
Acquisition of 40 tuktuks for waste management	All sub counties	To improve cleanliness and hygiene standards on city streets.	Enhanced street cleaning	Number of tuktuks	July 24-Jun25	ESWM	23M

- GOVERNANCE

PROJECT	LOCATION / WARD	OBJECTIVE	OUTPUT/ OUTCOME	ACTIVITIES	PERFORMANCE INDICATORS	IMPLEMENTING AGENCIES	Time Frame		COST
							Start Date	End Date	
Completion of the Likoni service Centre	Likoni Subcounty	To provide access to the services at sub county level	Accessed services	Completion of Likoni Center Deployment of staff to the service center. Operationalization of the service center.	Established Likoni service centers No. of staff working at the center	CECM, Environment & Governance Chief Officer G & SM Director HRM&A Director, Governance	30 Sept 2023	31 Dec, 2026	20M
Construction of phase 1 out of two phases of Changamwe/ Jomvu service Centre	Changamwe /Jomvu	To provide access to the services at sub county level	Accessed services	Identification of site for service centre at Changamwe/Jomvu Development of Bills of Quantity. Tender for the construction of the Service Centers. Construction of the phase 1 of service center.	One service center established	CECM, Environment & Governance Chief Officer G & SM Director, Governance	30 Sept 2023	31 Dec, 2026	20M
